**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

When I first moved to my families new home that we built, we tried to get Comcast to install fiber to connect to our home while the ground was open while other construction was underway, but this never happened. We were left to get AT&T's DSL at a meager 12MBs max speed. This was our life until I heard that Sonic offered as much as 40MBs, which I was ecstatic for. I've used many different ISPs in the past, but none can compare to the service I have received with Sonic. I believe them when they say that they'll bring fiber to my home, as opposed to all the empty promises from Comcast or AT&T. Please allow Sonic to have the chance to become as big as other ISPs, but with better customer service. Thank you.
